

## *EMERGENCY ROOM SKILLS CHECKLIST*

- 1 – NO EXPERIENCE**
- 2 – SOME EXPERIENCE (Require assistance / supervision)**
- 3 – EXPERIENCED (Need initial review, then can perform independently)**
- 4 – VERY EXPERIENCED (Can perform independently)**

Please select the column that most accurately describes your experience level.

EXPERIENCE LEVEL	1	2	3	4	EXPERIENCE LEVEL	1	2	3	4
Crisis Intervention					Third Degree				
Upholding Patient's Rights					Electrocution				
Suicidal Patient's Rights					Dressing Procedure				
Patient with Overdose					Hazardous Materials Exposure				
Patient in Restraints					Radiation Exposure				
Neuro Assessment					Pulmonary Edema				
Monitoring Neuro Signs					C.O.P.D.				
Use of Glasgow Coma Scale					Pneumothorax				
Acute Head Injury					Assisting with Intubation				
Acute T.I.A./C.V.A.					Assisting with Extubation				
Acute Spinal Cord Injury					Tracheotomy				
Seizure Precautions					Trach Tube				
Observing Increased Intracranial Pressure					T-Piece				
Application of Orthopedic Appliances					Obtaining Arterial Blood Gases from Radial Artery				
Transport of Patient with Spinal Cord Injury					Obtaining Arterial Blood Gases from Femoral Artery				
Assist with Lumbar Puncture					Obtaining Arterial Blood Gases from Arterial Line				
Calculating Emergency Medication Dosages					Setting up of Arterial Line				
Knowledge of Normal Serum Lab Values					Ventilator				
Pediatric Arrest/Resuscitation					O2 Mask				
Epiglottitis					O2 Cannula				
Overdose/Poison Ingestion					Venturi Mask				
Near Drowning					Ambu Bags				
Child Abuse					O2 Cylinders				
Spontaneous Abortion					Nebulizer Set Up				
Hemorrhage					Oropharyngeal Suction				
Placenta Previa					Nasotracheal Suction				
Abruptio Placenta					Endotracheal Suction				
Preeclampsia/Eclampsia					Assisting with Chest Tube Insertion				
<b>EXPERIENCE LEVEL</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>EXPERIENCE LEVEL</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>

Emergency Delivery					Use of Pleuravac Drainage System				
Communicable Diseases					Use of Emerson Drainage System				
Air Transport of Trauma Patient					G.I. Bleed				
Major Trauma					Abdominal Wounds				
Minor Trauma					G.I. Tubes				
M.A.S.T. Suit					Acute Abdominal Disorders				
First Degree					Insertion of Nasogastric Tube				
Second Degree					Gastric Lavage				
Acute Renal Failure					Rape Kit				
Chronic Renal Failure					Reporting Procedures for Acts of Violence				
Peritoneal Dialysis					Hypothermia				
Set up for Cast Application					Heat Stroke				
Checking C.M.S.					Heat Exhaustion				
Set up for OCL Splinting					Snake Bite				
Set up for Insertion of Steinman Pin/K-wires					Administration of Antivenin				
Assist with Close Fracture/Dislocation Reduction					Animal Bite				
Sedation Monitoring					Poison Index				
Application of Orthopedic Appliances					Isolation Procedures				
Set up for Flourescein/Woods Lamp Exam					Triage Procedures				
Use of Morgan Lens Irrigation					Care of Patients with AIDS				
Ear Irrigations					Lab Values				
Eye Irrigations					Procedure for Patient Signing AMA				
Eye Patch Application					Consent for Treatment of a Minor				
Nasal Packing					Disaster Protocol				
Remove Contact Lens					Heparin/Saline Lock				
Visual Acuity					Starting IV's (Adult)				
Setting up Suture Tray					Starting IV's (Peds)				
Assist with Sutures					Universal Precautions				
Assist with Staples					Assist with Peritoneal Lavage				
Suture Removal					Pelvic Tray				
Staples Removal					Cut Down Tray				
Steri Strips					Procto Tray				
Acute MI, CHF, Angina					CVP Tray				
Abdominal Aortic Aneurysm					Trach Tray				
Cardiac Monitoring					Culdocentesis Tray				
Recognizing Arrhythmias					Thoracentesis				
Obtaining 12 Lead EKG's					Dilantin				
Cardiopulmonary Arrest					Phenobarbital				
Cardioversion					Decadron				
Defibrillation					Mannitol				
Open Chest Heart Massage					Solu-Medrol				
Assist with Insertion of Permanent Pacemaker					Administration of Blood and Blood Products				
Assist with Insertion of Temporary Pacemaker					Lidocaine				
Trans-Thoracic Pacemaker					Bretylum				
Pervenous Pacemaker					Nipride				
Set Up and Use of CVP					Dopamine				
Interpretation of CVP Readings					Digitalis				
Interpretations of Swan Ganz Readings					Sodium Bicarbonate				
Thrombolytic Therapy					Atropine				
<b>EXPERIENCE LEVEL</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>EXPERIENCE LEVEL</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>
Anaphylactic Shock					Epinephrine				
Cardiogenic Shock					Dobutrex				

Septic Shock					Tridil/Nitroglycerine				
Hypovolemic Shock
